1. The following is an examiner's statement of reasons for allowance: the amendment filed 9/15/2005 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest the current mirror circuit incorporates a first current mirror resistor and a second current mirror resistor each connected to a low voltage source, the first current mirror resistor being connected to the base electrode and the second current mirror resistor being connected to the emitter electrode of the first switching means transistor as called for in claim 1. Therefore, claims 1 and 4-17 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
